Entertainment, Film and Sports: Tax

Because of Pryor Cashman's substantial presence in the areas of music and the production and financing of films, our Tax Group is skilled and experienced in the many issues affecting those industries.

Our tax attorneys provide counsel to foreign and U.S. performing artists, composers, actors and music publishers in connection with the federal, state and local tax issues affecting their businesses and intellectual property.

We have substantial experience with various tax issues and incentives affecting the film industry and regularly employ such knowledge in structuring domestic and foreign film financing, structured financing and production transactions.

Our Tax Group also counsels foreign and U.S. athletes in connection with tax issues.
