Jeffrey Johnson is a partner specializing in the transactional aspects of technology and intellectual property exploitation (patents, trade secrets, trademarks and copyright) including, in particular, all aspects of mergers and acquisitions, joint ventures, strategic alliances, joint development and marketing agreements, private placements and licensing in the biotech, entertainment, Internet, pharmaceutical, software and telecommunications industries.

Jeffrey typically focuses on transactional matters principally involving intellectual property or goods and services the value of which are largely attributable to intellectual property. Representative assignments include:

- Representation of Lady Gaga in her investment in The Backplane, as reported in The New York Times on June 6, 2011
- Representation of a private equity fund in connection with the acquisition and disposition of patent portfolios and related assets
- Representation of a public biotechnology company negotiating and documenting numerous strategic alliances, research and development collaborations, co-promotion agreements, patent and know-how licenses, and other agreements relating to the development and exploitation of the company's core technologies
- Representation of a public telecommunications company in connection with a strategic reorganization to maximize the value of its patent portfolio and licensed rights
- Representation of a "file sharing" website operator in connection with the negotiation and documentation of a sale of substantially all of its assets to a foreign file sharing website operator
- Representation of a pharmaceutical company's bioinformatics group negotiating and documenting numerous strategic alliances, software development agreements and software licenses, as well as the group's form agreements for the provision of bioinformatics services and the licensing of genomic and proteomic databases
- Representation of a technology-transfer company in connection with the sale of a portfolio of patents governing web-enabled software updating, active desktop and offline browsing

- Representation of a telecommunications company in connection with its sponsored research agreements with various U.S. and foreign educational institutions
- Representation of a health services company in connection with the purchase of an information management business including a large, proprietary prescription drug database
- Representation of a European-based public company in connection with the negotiation and documentation of a strategic alliance providing for the joint development and commercialization of an ASP-based software application useful for the on-line calculation, reporting and remittance of sales tax obligations
- Representation of a public pharmaceutical company in connection with the disposition of certain patent portfolios and related clinical data and know-how useful in connection with small molecule anti-genomic therapeutics and small molecule anti-bacterial therapeutics
- Representation of a privately held company in connection with the exploitation of a large portfolio of music rights via alternative media including Internet portals, mobile virtual networks and other wireless products and services
- Representation of a public biotechnology company in connection with the negotiation and documentation of agreements providing for the further clinical development and commercialization of a Phase I pharmaceutical compound in collaboration with a Fortune 100 pharmaceutical company

Jeffrey has been an invited speaker and panelist at a variety of public and private events.
